

Future Fleet NavXtend ALL IN ONE

Mobile Resource Management Solution by Xlerate

Use Future Fleet's new Connected Navigation NavXtend technology to revolutionise your dispatching operation.

Whether you're delivering goods or making service calls, customer satisfaction depends on having the right person in the right place at the right time with the right skills. Xlerate and NavXtend is the right solution that:

- ▶ Creates, dispatches, and tracks jobs and routes.
- ▶ Receive audible turn-by-turn directions from their current location to the job site with a simple push of a button
- ▶ Quickly finds the right resource for the job.
- ▶ Is easy to operate by providing key data at a glance.
- ▶ Wirelessly sends jobs to remote devices in real-time.
- ▶ Provides two-way text messaging so nothing gets lost or miscommunicated.
- ▶ Integrates seamlessly with other Xtend applications for advanced functionality.
- ▶ Easily integrate data into your back office systems via Xlerate's Web Services

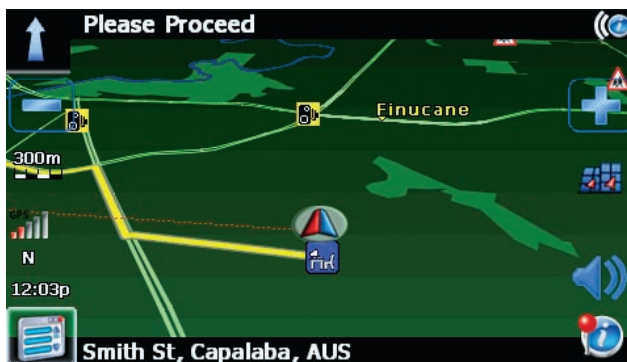

Powered by

xlerate

Benefits include:

- ▶ Increase productivity, more calls per day with the same resources.
- ▶ Communicate better with field personnel, reduce repeat contacts.
- ▶ Reduce call-backs due to unqualified techs or unavailable inventory.
- ▶ Eliminate abuse by verifying timesheets and mileage.
- ▶ Reduce equipment life cycle costs. Lower mileage reduces operations costs, lowers insurance, reduces accidents, and extends equipment life.
- ▶ Eliminate paperwork costs and delays.
