

# Future Fleet WT6000

Vehicle Tracking & Communication Platform by WebTech

- ▶ Track your vehicle in real-time
- ▶ Keep track of your vehicle usage eg. logbook
- ▶ Know where your staff members are at all times

The **WT6000** is a feature-rich device at the heart of Future Fleet's web based system, that provides mapping and reporting to optimize fleet management. The WebTech 6000 is fully configured over-the-air and supports remote upgrades.

## GPS based location and status reporting on GSM / GPRS networks

- ▶ Store and forward capability - store up to 2000 records
- ▶ Improved GPS - based location accuracy (WAAS)
- ▶ Real-time vehicle tracking and status monitoring
- ▶ Optional wireless bluetooth internet connectivity

## Over-the-air configuration & software upgrades

- ▶ Modify your locator functionality quickly and easily
- ▶ Reduce the cost to upgrade your locator with remote upgrade capability

## Telemetry Port

- ▶ Vehicle monitoring & control capabilities
- ▶ Supports 1x ADC port for temperature monitoring
- ▶ Supports 6x digital inputs (used for PTO, door open, panic button etc)
- ▶ Supports 6x digital outputs (used for ignition isolation, alarm activation etc)
- ▶ JBUS capability (used for engine monitoring)
- ▶ Supports 2x auxiliary serial ports for future interfacing

## Specifications

### GPS Receiver

- 12 channel GPS receiver module
- 10m accuracy (CEP)
- NMEA protocol supported

### Power

- 12V / 24V
- Current Consumption: 150 mA (Typical)
- Hibernate Mode: <10 mA

### Physical Specification

- Dimension: 100mm x 100mm x 40mm
- Weight: 200g
- Casing: Aluminium Extrusion

### Battery Backup

- Optional Backup Battery Available

### GSM Transceiver

- Tri Band GSM/GPRS Motorola G20

### Memory / Storage

- 2000 Logs
