

Future Fleet Xp6

Mobile Resource Management Solution by Xlerate

Powered by

xlerate

The Future Fleet Xp6 wearable personal tracking and security device is a GPS based tracking device with both position reporting and panic alarm capability. The unit can automatically report the wearers position at a set interval. Its intelligent power management and built in Li battery can report data up to 12hrs on a single charge.

The unit supports full voice capabilities and users can receive calls and dial up to 3 preset phone numbers.

Features

- ▶ Location tracking
- ▶ Position log for 10,000 positions
- ▶ Panic button and one-key dial for voice call
- ▶ Supports Geo-fencing
- ▶ g-Sensor for fall detection & power management
- ▶ 20 channel GPS receiver
- ▶ Dual band GSM/GPRS modem
